

McAfee Unified Cloud Edge 2-Day

McAfee® Education Services Instructor-Led Training

The McAfee® Unified Cloud Edge 2-Day Instructor-Led Training (ILT) course from McAfee Education Services provides in-depth training on what's different in the McAfee Unified Cloud Edge solution versus standard McAfee® MVISION Cloud. The course is intended for those who are already familiar with MVISION Cloud. The McAfee Unified Cloud Edge 2-Day ILT explains how to monitor and address risky, day-to-day end-user actions using web policy to filter web traffic from client machines.

Earn up to 16 CPEs after completing this course.*

* Student must self-report for CPE credits. We cannot guarantee any specific quantity, as it is up to the program or certification group to determine what they will or will not accept.

Audience

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with cloud asset security.

Recommended Pre-Work

- Knowledge of common cloud product administration, including Microsoft Office 365 and Amazon Web Services (AWS)
- Understanding of common security issues facing complex cloud environments
- Knowledge of cloud infrastructure and service connection in order to connect cloud products
- Working knowledge of MVISION Cloud

Agenda at a Glance

Day 1

- Welcome
- McAfee Unified Cloud Edge Overview
- McAfee® Data Loss Prevention Configuration
- McAfee® Web Gateway Setup
- Web Policy Part 1

Day 2

- Web Policy Part 2
- Web Policy Part 3
- Dashboards and Reporting
- Advanced Topics

COURSE DESCRIPTION

Learning Objectives

McAfee Unified Cloud Edge Overview

Analyze key use cases and drivers for application of McAfee Unified Cloud Edge in a customer environment.

McAfee Data Loss Prevention (DLP) Configuration

Identify the steps required to share DLP classification and evidence across MVISION Cloud and McAfee® ePolicy Orchestrator® (McAfee® ePO™) platforms.

McAfee Web Gateway Setup

Perform tasks required to enforce Web Policy on a client machine using McAfee Client Proxy.

Web Policy Part 1

Describe the basics of Web Policy rule and rule set construction.

Web Policy Part 2

Perform construction of global block and web filtering rule sets.

Web Policy Part 3

Perform Construction of Media Type, Application Control, and DLP rule sets.

Dashboards and Reporting

Explore the dashboards and reporting capabilities provided in MVISION Cloud.

Advanced Topics

Describe supported API calls to gather data from MVISION Cloud.
